MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : War Planners' Conference - 1957

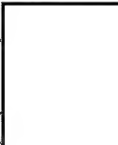

1. I consider the recently completed War Planners' Conference to be the most successful and productive conference of this type that we have held to date. A review of our conference agenda reveals how much emphasis has been placed on support planning problems by the headquarters staffs and by our overseas war planners. Agency war planning has progressed into a phase where we can, with coordinated support planning, make usable, dynamic, and realistic plans.

2. Your personal contribution to our conference and the energetic, skilled, and willing participation of your various staffs were major factors in the success of this conference. Your contribution and the many contributions of each of your staffs are deeply appreciated.
